

SkySphere® Voice and Ziphone

Access to your phone wherever you can connect to the Internet

Our broadband phone service includes your phone number along with local and long-distance calling, auto attendant, voicemail... and your choice of a variety of feature-rich desk phones. All without the expense of a business phone system.

SkySphere Voice also includes ZiPhone. Download ZiPhone and use your computer to make and receive calls on your business phone number anywhere you have access to the Internet.

ZiPhone...wherever you are, whenever you need it... you're in the drivers' seat with click-to-dial directories, find-me-follow-me, voicemail-to-email, fax-to-email, caller ID, and more.

Call your CornerStone Account Team to learn more about SkySphere Voice and for a free on-site analysis.
